Help (Pro Only) New feature in this release. Help (Pro Only) - The Help feature is very helpful when you are uncertain about a parameter or feature of the software. The Help feature gives step-by-step instructions with this software. For example, if a shape or path is not visible, click on the Help feature and it will guide you through the way to make it visible. Or, if a parameter is not set correctly, hover over a parameter and it will guide you through the way to set it correctly. Also, using the following shortcuts, a user is immediately transported to the Help feature. Simply click on the Help feature in the application and press the F1 key. Also, the Help feature is very helpful when a user wants to see the most recently opened files. Select the Help feature and then click on the Open Recent button in the top menu. A list of recently opened files will be displayed. Click on any of the listed files and the program will open that file.
